FINANZA E IMPRESA

■**CONDOTTE.** Una tra le infrastrutture portuali più importanti del mondo è stata consegnata nei giorni scorsi dalla società italiana per Condotte d'acqua (gruppo Intecna) alle autorità del Portogallo. Si tratta del porto oceanico di Sines per la cui costruzione sono stati necessari vent'anni di lavoro e sofisticate soluzioni tecniche. L'opera spiega una nota della società Condotte rientra in un progetto di sviluppo della regione portoghese Alto Alentejo dove è stata installata una raffineria alimentata attraverso il porto da un impianto petrolchimico. La zona è stata anche dotata di una rete viaria e ferroviaria con un nastro trasportatore di dieci chilometri che collega il porto ad una centrale termoelettrica a carbone e persino di una città, S. Andrè, fondata per ospitare gli addetti alle nuove attività.

■**SIP.** L'oscar di bilancio 92 promosso dall'istituto relazioni pubbliche con il patrocinio della centrale dei bilanci e la collaborazione del settimanale *Il Mondo* è stato assegnato quest'anno alla Sip. La giuria presieduta da Luigi Guatri ha inoltre conferito gli attestati di eccellenza di categoria ai bilanci delle società immobiliare Metanopoli, Italgas, Snam, Ibm, Aem, Toro assicurazioni e Banco Ambrosiano veneto. I premi speciali per la miglior relazione semestrale e per il miglior bilancio ambientale sono andati rispettivamente ad Italgas e Ibm.

■**ARSOL (FEDIT).** Nessuna proposta d'acquisto per l'Arsol (azienda controllata al 100% da Federconsorzi) è stata depositata presso il notaio romano Enrico Parenti. Scadeva infatti ieri la data fissata per la presentazione delle offerte per l'acquisto di un'azienda che nei suoi quattro moderni stabilimenti di Calenzano (Firenze), Mungivacca (Bari), Latina e Roma impiega complessivamente 127 lavoratori. L'impresa produce antiparassitari e mangimi per animali.

La recessione morde le Fiat
Controcorrente solo le Stet

■ MILANO. La recessione morde sul mercato azionario. Un'ondata di realizzi ha investito le Fiat dopo la diffusione dei dati sul calo record delle vendite di auto sul mercato italiano in novembre determinando un salasso del titolo di Agnelli del 4,7% sceso a 3900 lire lasciando in[illegible] che quota 4000. Ma la scure è calata anche sugli altri titoli guida da dove si salvano solo le Stet che hanno chiuso con un lieve incremento dello 0,76% dopo le dichiarazioni di Barucci circa il modo con cui la Stet cederà il 51% ai privati. In relazione a ciò escono con un forte calo anche le Olivetti che perdono il 3,30% soffrendo in parte anche delle smentite alle ipotesi di un accordo con la Stet arrivata l'altro ieri dall'amministratore delegato della società pubblica.

Forte arretramento anche per le Montedison con il 3,49%, per le Assitalia con il 3,19% e per le Ifi con 3,12%. Non meno rilevante la perdita delle Generali con l'1,93%. Il Mib che alle 11 cedeva il 2,2% ha corretto parzialmente la tendenza segnando a fine seduta un calo dell'1,76% chiudendo alla fine con una flessione dell'1,53% a quota 829.

Gli scambi rispetto ai giorni scorsi non presentano variazioni di rilievo rimanendo a livelli piuttosto modesti. Lo sforzo di Bankitalia per ridurre i tassi dei pronti contro termine per incoraggiare una riduzione generalizzata del costo del denaro lascia indifferente il mercato azionario spaventato dai dati sulla recessione.

Da rilevare infine il fatto non secondario che ieri piazza Affari era alle prese con la prima scadenza tecnica di dicembre dovendo segnare i prezzi di riferimento per la risposta premi di oggi. *R.G.*
