

questa settimana

Dopo una settimana ricca di notizie, «questi nuovi «cieli»» ecco una settimana di «continuazioni» più prossima a quella che ha preceduto. In questa settimana, invece della regola generale che — estate — inverte per appuntamenti fissi e semi-fissi, ci occuperemo di un fatto di costume che non ha niente di eccezionale e che non formerà in futuro il capitolo di un libro. L'intera settimana, infatti, ruota su programmi che sono in corso da lungo tempo e hanno preso il via da settimane scorse. Con questo di peggiorativo: che gli ultimi appuntamenti sono in buona misura assai dettati e ci prepariamo a farci qualche settimana di anticipo.

Innanzi tutto il ciclo centrale dedicato a Peppino De Filippo che avrebbe dovuto finire il ciclo teatrale e avrebbe dovuto concludere il ciclo cinematografico. La settimana francese a puntate La casa nel bosco destinato a trascinarsi fino a settembre. La via scelta per la presentazione di questo autore indisciplinato è infatti la più discutibile: si è rimasti a mezza strada fra la registrazione dal palcoscenico e il linguaggio esplicitamente televisivo che la nostra televisione ha difficoltà ad accettare quando si fa in altri paesi, come ad esempio la Francia). Il rapporto fra teleoperatori ed attori è dunque continuamente frantumato «a tratti» gli attori vengono presentati «di fronte a camera» e non «in scena» come avviene necessariamente in un palcoscenico che ha una sola direzione di rapporto visivo con il pubblico, in sala: a volte la telecamera affonda in palcoscenico, isolando i più minuti e piccoli particolari e presentando insomma angolazioni prospettive differenti. A questa condizione di linguaggio si è aggiunta la mancanza di qualsiasi introduzione (che forse avrebbe potuto ulteriormente fornire, in prima persona, lo stesso Peppino); cosicché questi testi, già deboli per conto proprio, si indeboliscono ancora di più e appaiono con troppa facilità ai limiti della macchietta.
