

FINANZA E IMPRESA

FERRUZZI. Nel mese di dicembre il gruppo Ferruzzi ha venduto titoli e diritti in borsa con un incasso tra i 150 e i 170 miliardi. E quanto si ricava da una comunicazione diffusa dalla Serafino Ferruzzi, la holding al vertice della piramide, che ha venduto azioni proprie Montedison ordinarie, risparmio e risparmio non convertibili, Ferfin risparmio relativi all'aumento di capitale Montedison.

dicembre Picco aveva lasciato il consiglio Parmalat. ILVA. C'è interesse per la privatizzazione dell'Ilva. Alla prima scadenza prevista ieri dal bando per la cessione della Acciai speciali termi (Ast) e della Ilva laminati piani (Iip) numerose manifestazioni di interesse sono pervenute dall'Italia e dall'estero ai due istituti incaricati dall'Iri di raccogliere le offerte, la Barclays de Zoete Wedd limited e l'Imi.

Pioggia di vendite dall'estero E le Ferfin fanno il tonfo: -15%

MILANO. Terzo calo consecutivo per la Borsa di Milano: dopo una mattinata già negativa, la quota è peggiorata nel pomeriggio in un volume di scambi crescente e l'indice Mib ha chiuso in regresso del 2,35% a 957 punti e il Mibtel dell'1,44% a 9.534 punti (si tratta di nuovi minimi dell'anno).

scadenze tecniche. Mercoledì c'è la risposta premi e venerdì sono in calendario i report e si stanno sistemando posizioni. Quale delusione è venuta dal mancato calo dei tassi da parte della Bundesbank. In questo quadro, nell'ultima fase della giornata, si sono manifestate forzature di prezzo e vendite allo scoperto che più, anche peggiorando i prezzi. In più, anche l'estero, che negli ultimi giorni era apparso spettacolare, si è affacciato nel ruolo di venditore e lo spessore del mercato è aumentato. La lettera, con un aumento degli scambi, ha comunque trovato un buon assorbimento e gli operatori non appaiono preoccupati da questo vistoso consolidamento

della quota che si sta manifestando ormai da tre sedute. Sotto i riflettori i titoli del gruppo Ferruzzi visto anche che da martedì i diritti (oggi in forte decremento) non verranno più trattati: soprattutto a causa di chiusura di operazioni di arbitraggio le Ferfin hanno sacrificato il 15% con quasi 6 milioni di titoli scambiati e le Montedison l'1% con oltre 40 milioni di pezzi passati di mano. Le Fiat hanno terminato in discesa dello 0,6%, le Generali del 2% e le Mediobanca del 2,1%. Male anche le Olivetti (-2,69%) e le Comit (-2%). Offerte le Stet (-1,6%) e le Sip (-2%), pesanti le Burgo che hanno lasciato sul terreno il 4,6%.
